

Scientific Partners Australia Pty Ltd

Your Partners in Science Australia!

Established in August 2011, Scientific Partners Australia Pty Ltd is a Perth based company supplying laboratory chemicals, instrumentation and filtration products.

We are passionate about science and assisting the scientific community in achieving their goals. Actively engaged in organising seminars, product demonstrations

and workshops we are committed to our customers.

Our aim is to work together with customers and suppliers to be *"your partner in science"*.

Company Values

1. Deliver the best possible service
2. Build open and honest relationships
3. Continually improve our business
4. Always growing and learning
5. Create a positive team environment
6. Effectively communicate with others
7. Be passionate and diligent
8. Enjoy what we do
9. Always show respect
10. Empower others

Our Mission Statement

Partnering with our suppliers and customers to provide a reliable local service to Perth's laboratory community.

"At Scientific Partners Australia, both individually and collectively we are committed to complete customer satisfaction, achieved through our long standing customer and supplier relations, based on an open and honest approach"

- John Johnston Director

Our Vision Statement

To be acknowledged as a leading scientific supplier, collaboratively creating awareness of new advances in science through latest technologies that facilitate industry and research efforts in Australia.

"Through a collaborative approach we value customer and supplier relationships, aiming to provide solutions to problems, providing continuous improvement, networking, value adding therefore being your partner in science."

- Stephanie Moore Director

Supplier of Leading Brands to the Following Markets

Environmental

- Academia
- Algae
- Chemical Manufacturers
- Consultants (Air Monitoring)
- Consultants (Environmental)
- Conservation
- Contaminated Sites
- Contract Labs (Environmental)
- Government (eg CSIRO)
- Marine Science
- Microbiology
- Occupational Health & Safety
- Pesticides
- Toxicology & Controlled Substances
- Waste
- Water Science
- Water, Soil, Plant Testing
- Water Treatment

Mining/Industrial

- Academia
- Cement, Concrete
- Construction
- Consultants (Chemical, Engineering)
- Contract Labs (Analytical Services)
- Drilling Services
- Engineering
- Gold Ore Mining
- Government (eg CSIRO, Shires)
- Importers / Imported Products
- Iron Ore Mining
- Manufacturing
- Materials Research
- Material Science
- Metals Analysis
- Metal Ore Mining
- Minerals
- Mineral Exploration
- Mineral Sands
- Mining
- Nanomaterials
- Packaging
- Polymers
- Recycling & Waste Management
- Semiconductors

Life Science/Pathology

- Academia
- Animal Facilities
- Clinical (Hospitals)
- Education (eg Schools)
- Government (eg CSIRO)
- Healthcare
- IVF
- Pathology (Government, Private)
- Pharmaceutical
- Pharmaceutical Compounding
- Pharmacy
- Quarantine Services
- Veterinary

Food/Agriculture

- Academia
- Agricultural Chemicals
- Breweries / Malting
- Contract Labs (Soil/Plant)
- Dairy
- Fertilizers
- Fisheries
- Food & Beverage
- Fruit Growers
- Grains
- Government (eg CSIRO)
- Hatcheries
- Hydroponics
- Garden & Nursery
- Nutraceuticals
- Pet Food
- Wineries

Connecting leading brands and services to your world.

Fuels/Energy

- Academia
- Biodiesel / Renewable Energy
- Bioleaching
- Coal & Coal Testing
- Contract Labs (Used Oil)
- Engine Oil/Lubricant testing
- LNG/LPG
- Oil Drilling
- Oil Exploration
- Petroleum
- Process Monitoring (online/offline)
- Refineries

Our Partners/Products

A&D Weighing is the mass measurement division of A&D Australasia. The largest range of scale, digital scales, balances, dynamic weighing systems and testing products, designed to serve any personal or commercial function, and the best value for money.

Scientific Balances & Lab Scales • Calibration Tools & Accessories • Analytical Measurement • Industrial Scales & Checkweighers • Health & Aged Care • Scales Servicing.

Chem-supply Pty Ltd is an Australian owned manufacturer and supplier of laboratory and industrial specialty chemical products. The Laboratory Division offers a diverse range of over 6,000 quality reagents and standards. These products find application in analytical testing, education, research and manufacturing.

chem-supply
Authorised Sales Agent

Acros • Allied Colour & Additives • AkzoNobel Fine Chemicals • Chem-Supply • Croda • Crodacom • FKur GmbH • ForMedium Ltd • Honeywell Burdick & Jackson • IoLiTec • Mitsubishi Engineering Plastics • Molecular Products • Precision Laboratories • RCI Labscan • Reference Standards • Scharlau • Seatons • Sederma • Sensient Cosmetic Technologies • Solvionic • Technico Flor • TCI, Wilmar.

Elementar has over 100 Years of Experience in Elemental Analysis. Born from the Analytical Instrumentation Department of the Heraeus Technology Group, Elementar is the leading German manufacturer of a range of analytical instruments

specialising in the determination of nonmetallic elements including Carbon, Nitrogen, Sulphur, Hydrogen, Oxygen and Chlorine in most organic and inorganic substances.

CHNOS Elemental Analysis • Agrarian Analysis • Environmental Analysis • Fuel Analysis • Stable Isotope Ratio Analysis • Accessories & Consumables • Service & Support.

Gelaire is a specialised supplier of laminar airflow cabinets, precision air samplers and cleanroom test equipment to leading Australian science, industry and healthcare facilities.

HLAF / VLAF horizontal and vertical laminar flow cabinets • BH-EN Class II biological safety cabinets with hinged window • UltraSafe Class II biological safety cabinets with electric sash • CytoFAST cytotoxic drug safety cabinets with electric sash • ENVAIR cytotoxic dispensing isolators • VPCR60 compact PCR cabinets • Compounding Chemists laminar flow • powder handling safety cabinets • cytotoxic drug safety cabinets • RHLAF powder containment cabinets • Animal cage-change cabinets • Ergo-Lab electric cabinet stands.

Our Partners/Products continued

Ionode is a specialist manufacturer of pH, ORP and Ion Selective electrodes for industrial, field and laboratory applications and are respected as the benchmark in the science of sensors.

pH electrodes and electrochemistry • pH • Conductivity • Ion Selective (ISE) • Reference Electrodes • ORP (Redox).

Providing filtration, separation and purification solutions for your fluid management needs.

Chromatography • Drug Screening • Environmental QC (Air/Water) • Genomics • HPLC & Chromatography Sample Preparation • Laboratory Water Purification • Microbiological QC • Protein Analysis • Proteomics • Protein Chemistry • Protein Purification • Sterile Filtration & Clarification • Tangential Flow Filtration • Venting & Gas Filtration.

Environmental Health - Solutions and Services for Environmental Health covering Chemicals, Consumer Product Manufacturing, Energy, Environmental Analysis, Food, Beverage & Nutraceuticals, & Forensics.

Atomic Spectroscopy • Chromatography Systems • Elemental Analysis • Hyphenated Systems • Infrared Systems • Sample Preparation • Spectroscopy: Fluorescence & UV/VIS/NIR • Thermal Analysis.

Life Science & Technologies - Solutions and Services for Life Sciences Research covering Genomic Analysis, Imaging & Pathology, Biomarkers, Biotherapeutics, Targeted Small Molecules, Cellular Imaging.

Assays & Reagents • Automation & Liquid Handling • Cellular Imaging & Analysis • Microfluidics • Microplates & Consumables • Nucleic Acid Isolation • Plate Readers & Shakers • Quantitative Pathology Imaging & Analysis • Radiometric Detection.

PS Analytical is a leading company in Atomic Fluorescence Spectroscopy (ASF) systems, which offers many advantages over other techniques (such as Atomic Absorption Spectroscopy) for the determination of Mercury and the Hydride forming elements providing unparalleled sensitivity.

Mercury (Hg) • Selenium (Se) • Antimony (Sb) • Bismuth (Bi) and Tellurium (Te) • Laboratory & Online systems.

Our Partners/Products continued

	Endotoxin testing, LAL, control standard endotoxin (CSE), dilution tubes, tips, LAL plates, LAL water, instrumentation.	Purge and Trap, Headspace and Sample Concentration for GC analysis of VOCs in air, water and soils.	
	Microwave digester, moisture, fat and protein analysers.	Platelet aggregometers and reagents.	
	Pipet-Aids, microdispensers, oocyte injectors and capillary tubing.	Consumables and equipment for wet chemistry techniques, including acid digestion, cyanide and phenol distillation, BOD, TSS, oil and grease testing.	
	Tribology testing equipment specializing in the study of friction, wear, abrasion, and erosion.	Freezers, centrifuges, ovens and incubators.	
	Portable and on line-process analysers for vapour pressure, RVP, TVP, flash point, distillation, viscosity and FTIR.	Centrifuges, spectrophotometers, freezers, plate washers and plate readers.	
	Mixing, Centrifugation, Tube racks, Pipettes, tips and general laboratory use items.	Ultrasonic equipment for homogenising, dispersion, emulsifying, cell extraction, transesterification and cleaning for laboratory and industrial sites.	
	Gel electrophoresis tanks and blotting systems.	Slides, heating stages and accessories for live cell imaging	
	Precision fuel testing and Low temperature viscosity instruments for routine and laboratory testing of engine oils, lubricants and related fluids.	DKSH LabSource TM range of consumables, plasticware and general laboratory products. Includes Freezer boxes and Racks.	
	Flow Injection Analysis for low level nutrient determinations with IC options. Rapid distillation of cyanide, phenols & ammonia using fully disposable technology.	Heating and cooling equipment for constant temperature. Water baths.	
	Multi-parameter, titration, BOD and COD analysis for laboratory and process testing.	High shear cell disruption capabilities with improved protein recovery and scaleup guaranteed. Tough on cells gentle on protein. E.Coli, Yeast Cell Disruption, Algae, Mammalian Tissue, Bacteria, Plant, Insect, Fungi.	
	Dedicated fuel analysers, including combustion, IC prep and Chlorine/ Sulfur systems. Karl Fischer moisture analysers and automatic titrators.	Petroleum testing equipment dedicated to quality control and compliance to ASTM and other global methods.	
	Biotech nutrient analysers and cell density viability systems.	Fuel lubricity and wear testing instruments and consumables.	
	Cloud, pour and freeze point analysers for laboratory and online applications.	Determination of vapour-liquid-equilibria, bench scale micro- & semi-micro fractional distillation, discontinuous fractional distillation systems, thin-film evaporation systems, short-path evaporation systems, extraction systems, adsorption/ absorption/ desorption.	
	Peristaltic pump tubing and fittings.	Block Heaters, Centrifuges, Colony Counters, Dri-Blocks, Flocculators, Heating Mantles, Homogenizers, Hotplates/Stirrers, Hybridization Incubators, Shakers & Rockers, Thermal Cyclers, Vortex Mixers, Water baths and more.	
	High pressure/performance syringe pumps for lab & pilot scale experiments, such as core flooding, carbon sequestration, SFC & SFE techniques. Flash chromatography systems for organic purification, and more.	Laboratory Freezers (-20oC, -30oC, -45oC, -80oC), & refrigerators (+4oC), Freeze Dryers, Ice Machines.	
	ELISA Kits for in vitro diagnosis of infectious diseases. CFT reagents, ELISA, antigens and controls. ELISA Automation.	Sulphur and chlorine analysis in hydrocarbons using WD XRF. Portable, bench top, online and turn-key solutions available with ASTM compliance..

A-Z Product Listing (as at January 2015)

Offering chemicals, consumables, reagents, instrumentation (minor and major), Scientific Partners Australia Pty Ltd offers a comprehensive range to meet your requirements:

Acid Digestion & Extraction
Aggregometers, Platelet
Alkalinity Testers
AlphaLISA/AlphaSCREEN
Anthropological Instruments (GPM)
Antibodies
Atomic Absorption Spectroscopy
Autoclaves & Steam Sterilizers
Automatic Furnace, Combustion IC
Balances & Scales, Laboratory
Biological Safety Cabinets, Class II
Bioreactors, Cell Culture
Block Digestion Systems
BOD/COD Analysers
Cabinets, Climatic
Calibrations Masses
Cell Harvesters
Centrifugal Devices
Centrifuges (Mini, Benchtop, Ultra)
Chemicals, Chromatography
Chemicals, Lab & Research
Chlorine Analysis in Hydrocarbons
Chromatography Columns
Chromatography Consumables
Circulation Chillers (Heating, Cooling)
Colony Counters
Colour Measurement
Colorimeters
Compositional Analysis (Protein, Fat)
Conductivity Meters and Standards
Consumables & Accessories
Cryogenic Tanks/Dewars
Cyanide Distillation & Analysis
Differential Scanning Calorimetry
Disinfection & Decontamination
Dispensers, Bottle-Top
Disposable Plastics
Dissolved Oxygen Meters
Distillation
DMA & TMA Analysers
DNA/RNA Extn Magnetic Beads
Dry Block Heaters
Elemental Analysers (CHNOS,Cl)
ELISA Kits – Inf Diseases, CFT Rgts
Endotoxin/Glucon Detection
Evaporation Manifolds (Nitrogen)
Fermentation & Cell Culture Systems
Filter Funnels and Manifolds
Filter Holders
Filter Plates
Filtration Media
Flash Chromatography
Flash Point Testers
Flocculators
Flow Injection Analysers
Fluorescence Spectroscopy
Foetal Calf Serum Substitute
Freeze Dryers
Freezers, Laboratory
Freezers, Racks/Boxes
Freezers, ULT (-86°C)
Fridges, Laboratory
FT-IR & FT-NIR
Fuel Analysis
Gamma Counters
GC, GCMS, GCMS-MS (TOF)
Gel Documentation Systems
Gel Electrophoresis
Headspace (Trap) Samplers
Heating Mantles
Homogenizers, Ultrasonic
Hotplates, Hotplate Stirrers
HPLC & UHPLC
Hybridization Ovens
Hydride Metals Analysers (Lab)
Hydride Metals Analysers (Online)
Hyphenated Technologies
Ice Machines
ICPMS, ICPOES
Incubators
Isotope Ratio Mass Spectrometry
Karl Fischer Moisture Titration
Laminar Flow Cabinets
LC, LCMS
Liquid Handling Robotics
Liquid Scintillation Counters
Live Cell Imaging
Magnetic Stirrers
Mass Spectrometry
Mechanical Analysers
Melting Point Apparatus
Mercury Analysers (Laboratory)
Mercury Analysers (Online)
Microfluidics (LabChip)
Microplates
Microscopy Disposables
Microwave Digestion
Microwave Muffle Furnace
Microwave Synthesis
Mixers & Shakers
Moisture Analysers
Nitrogen & Sulphur Analysers
Nitrogen/Protein Analysis (DUMAS)
Ovens
Overhead Stirrers
PCR, RT-PCR
Peptide Synthesis
Peristaltic Pumps
pH Buffers and Standards
pH Meters and Electrodes
Pipettes (Manual & Electronic)
Pipette Accuracy Testers
Pipette Tips
Pipetting Aids
Plate Readers & Washers
Pre-cast Gels
Purge & Trap (GC/GCMS)
Pyrolyzers (GC/GCMS)
Radioisotopes
Reagents
Reference Standards (AAS, IC, ICP, ICPMS)
Refractometers
Rotary Mixers
Sample Prep (Amino Acid Analysis)
Shaking Incubators
Sonicators
Specific Ion Meters/Electrodes
Spectrophotometers & Cuvettes
Standards (AA/ICP)
Sulphur Analysis in Hydrocarbons
Syringe Filters
Syringe Pumps (High Pressure)
TDS/Salinity Meters
Thermal Analysers (DSC)
Thermal Desorption (GC/GCMS)
Thermogravimetric Analysers (TGA)
Thermoregulators
Titrator, Automatic
TOC Analysers
Transilluminators
Tissue Imaging
TSA Kits, Immunohistochemistry
TSA Kits, in situ Hybridization
Turbidity Meters
Ultrasonic Baths
UV/VIS Spectrophotometers
Vacuum Concentrator
Vacuum Pumps, Laboratory
Vapour Pressure Testers
Viscosity
Vortex Mixers
Water Baths
Water Purification
Water QC Standards
Water Stills
Western Blotting
